

# Adarsh Saurabh

I am a computer science first year Btech student from Guru Ghasidas University.  
I am really interested in computers, Artificial Intelligence and computer vision.

## EXPERIENCE

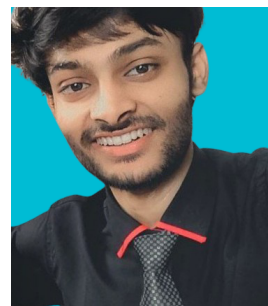

- Member at **Bluelearn** (BlueLearn is one of India's largest student communities) since october 2020.
- Member of **AI/ML club** at **Google Developer's club** of our college from April 2021.

## PROJECTS

- Deployed a game (stone paper scissors) on **Heroku** using **Flask**.  
(<https://stone-paper-scissor-game.herokuapp.com/> )
- Using Computer Vision made a program which makes humans invisible Just like **Mr.India**.  
([https://www.linkedin.com/posts/adarsh-saurabh-b27492145\\_deeplearning-project-m-l-activity-682177755085115393-qx7E](https://www.linkedin.com/posts/adarsh-saurabh-b27492145_deeplearning-project-m-l-activity-682177755085115393-qx7E))
- Using **Computer Vision** made an **image filter**. It uses **Haar-Cascade face detection** to detect eyes and then applies the filter.  
(<https://github.com/Adarsh-Saurabh/Machine-Learning-Projects.git>)
- **Taxi price prediction** model using NYC traffic dataset on **kaggle**.
- Got **2nd** position among first years in the college level **hackathon "HACKFEST"** and **6th** position overall. We made a platform for college students to help in studies and side hustles deployed using **Firebase**.

## EDUCATION

Btech first year Computer Science Engineering, Guru Ghasidas University, Bilaspur, Chattisgarh.

## SKILLS:-

### Interpersonal Skills:

- \* Believes in teamwork.
- \* Positive Thinker.
- \* Creative Approach.
- \* Team Leader.

### Professional Skills:

- \* C++
- \* Python
- \* Machine Learning
- \* Computer Vision
- \* Flask
- \* Heroku
